---

Summary

Computer Science and Artificial Intelligence student specializing in backend development using PHP, Laravel, and MySQL. Experienced in building real-world web applications and RESTful APIs with a strong foundation in object-oriented programming, database design, and software engineering principles. Actively seeking a backend development opportunity to gain hands-on experience and contribute to scalable, high-performance systems.

Professional Experience

Bravo Egypt **Cairo, Egypt**

Backend Developer Trainee 06/2026 – 10/2026

- Practiced backend development using PHP and Laravel to build secure and scalable web application architectures.
- Worked extensively with MySQL databases, designing relational schemas and optimizing CRUD operations.
- Handled HTTP request/response lifecycles, route handling, authentication mechanisms, and form validation.

National Telecommunication Institute (NTI) **Cairo, Egypt**

Full Stack Developer Trainee 07/2026 – 08/2026

- Completed an intensive Full Stack Web Development training program covering end-to-end backend and frontend integration.
- Built responsive web interfaces using HTML, CSS, and JavaScript, integrating frontend views directly with PHP and Laravel backend endpoints.
- Managed database connectivity, implemented secure user authentication flows, and utilized Git/GitHub for version control.

Bravo Egypt **Cairo, Egypt**

Frontend Developer Trainee 01/2026 – 06/2026

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Practiced building modern user interfaces and refining layout structures across multiple practical training tasks.

Education

Zagazig National University **Zagazig, Egypt**

Bachelor's Degree in Artificial Intelligence 09/2023 – Expected 06/2027

- Studying Artificial Intelligence, Data Science, programming, algorithms, and database management fundamentals.
- Developing strong problem-solving and software development skills.

Projects

Smart Gym Management System — gymmaster.42web.io 07/2026 – 08/2026

PHP, Laravel, MySQL, HTML, CSS, JavaScript, Authentication

- Developed a complete web-based management system for gym operations.
- Implemented secure user login functionality, session control, and access levels.

- Engineered subscription management workflows and database backend for tracking member packages.

Skills

Technical Skills: PHP, Laravel, MySQL, RESTful APIs, CRUD Operations, Database Design, Session Management, Authentication

Web Technologies: HTML5, CSS3, JavaScript, React

Tools & Version Control: Git, GitHub, Visual Studio Code, Postman

Soft Skills: Problem Solving, Clean Code, Adaptability, Continuous Learning, Communication, Teamwork

Certifications

- Full Stack Development Training — National Telecommunication Institute (NTI) (08/2026)
- Backend Development Training — Bravo Egypt (10/2026)
- Frontend Development Training — Bravo Egypt (06/2026)
- CIB Summer Program 2026 — Commercial International Bank (CIB) (08/2026)
